INES-RUHENGERI • SWE 3409 INDIVIDUAL ASSIGNMENT 2

Standalone Android Physical-Device Test Log

Student Name:	Joel Eliezer Youto Mongar Jr	**Registration No:**	25/27585
Application Name:	JMPortfolio	**Verification Code:**	**MOB-A2-7585**
Test Device Model:	Google Pixel 7 (Physical Device)	**Android Version:**	Android 14 (API Level 34)
Package Identifier:	`rw.ac.ines.ug2527585.jmportfolio`	**Build Profile:**	EAS Build Preview (Standalone APK)

1. Physical Device & Environment Verification Suite

Test ID	Verification Objective	Execution Procedure	Observed Result	Verdict
`TC-ENV-01`	**Standalone APK Launch (No Expo Go)**	Install MOB_A2_2527585.apk directly on Google Pixel 7. Launch from app drawer.	App launches standalone with custom indigo splash screen and transitions to Home screen without Expo Go.	**PASS**
`TC-ID-01`	**Core Identity Statement Check**	Inspect first sentence rendered in Home screen hero card.	Exact text rendered: *"My name is Joel Eliezer Youto Mongar Jr."* Matches README and UIUX PDF.	**PASS**
`TC-ID-02`	**Individual Verification Code**	Verify code on About screen and Home screen against registration number 25/27585.	Monospace chip displays MOB-A2-7585. Matches handwritten card.	**PASS**
`TC-NAV-01`	**Bottom Tab Navigation**	Sequentially select Home, Skills, Projects, Profile, and About tabs.	Instantaneous tab switching, active icon toggles, and proper header titles.	**PASS**
`TC-NAV-02`	**Project Details Nested Stack & Back Behavior**	Open EcoTrack Ruhengeri project. Press Android hardware back button.	Smooth transition to ProjectDetails; back button cleanly returns to Projects list preserving scroll.	**PASS**

Page 2: Input Validation, Persistence & Media Tests

Test ID	Verification Objective	Execution Procedure	Observed Result	Verdict
`TC-VAL-01`	**Rule 1: Headline Length Validation**	Input "Dev" (<5 chars) in headline field. Observe field-level message and Save button.	Inline red error: *“Headline must be at least 5 characters.”* Save button disabled.	**PASS**
`TC-VAL-02`	**Rule 2: Biography Length Validation**	Clear bio and type "Short bio" (<25 chars). Observe live character feedback.	Inline error displays: *“Bio is too brief (9/25 characters minimum).”* Save remains locked.	**PASS**
`TC-VAL-03`	**Rule 3: Primary Skill Validation**	Clear primary skill field completely.	Inline error displays: *“Primary skill cannot be empty.”* Save button blocked.	**PASS**
`TC-VAL-04`	**Valid Form Submission & Persistence**	Enter valid headline, 60-character bio, and skill. Tap Save Profile Changes.	Save button activates. Success alert appears confirming persistence to AsyncStorage.	**PASS**
`TC-STO-01`	**AsyncStorage Cold Reboot Recovery**	Save custom headline and photo. Force-close app from Android App Switcher. Re-launch.	Custom headline, bio, and image URI are loaded from AsyncStorage immediately on launch.	**PASS**
`TC-MED-01`	**Gallery Media Picker & Cancellation**	Tap "Choose from Gallery". Cancel gallery picker without selecting an image.	App catches cancellation gracefully, displays feedback banner, and retains prior avatar.	**PASS**
`TC-MED-02`	**Camera Capture & Photo Removal**	Capture new photo via camera. Verify preview. Tap "Remove" button.	Photo sets as circular avatar. Remove button prompts confirmation and restores default avatar.	**PASS**

Page 3: Airplane Mode & Demonstration Protocol

1. Offline & Airplane Mode Rigorous Testing

Test ID	Verification Objective	Execution Procedure	Observed Result	Verdict
`TC-OFF-01`	**Airplane Mode Autonomous Operation**	Switch phone to Airplane Mode (Wi-Fi OFF, Cellular OFF). Navigate across all screens.	100% functionality preserved: hero section, skills, projects, and editor operate without delay.	**PASS**
`TC-OFF-02`	**External Link Labeling & Safety**	Inspect project external GitHub link in Project Details while offline.	Link is explicitly marked *"(Requires Internet Connection)"*. Tapping alerts user offline safely.	**PASS**

2. Demonstration Video (2-Minute) Sequence Verification

The demonstration video MOB_A2_2527585_DEMO.mp4 was recorded continuously without cuts, verifying:
1. **Handwritten Card:** Name (**Joel Eliezer Youto Mongar Jr**), Reg Number (**25/27585**), App Name (**JMPortfolio**), Code (**MOB-A2-7585**).
2. **Installed Standalone APK:** Launched directly from Android home launcher without Expo Go.
3. **Core Statement & Portfolio:** Clear visibility of 'My name is Joel Eliezer Youto Mongar Jr.' and project inspection.
4. **Validation Error & Recovery:** Intentionally typing short headline (<5 chars), observing error, correcting, and saving.
5. **Cold Restart Restoration:** Swiping app away from recent apps, reopening, and verifying persisted data.
6. **Verification Card Preview:** Navigating to About screen showing MOB-A2-7585.
7. **Airplane Mode & Clock:** Status bar showing airplane icon and device clock during unedited capture.

Tester & Developer Sign-Off

Lead Developer & Student:	Joel Eliezer Youto Mongar Jr
Academic Institution:	INES-Ruhengeri (Software Engineering Department)
Test Date & Location:	October 12, 2026 • Musanze, Northern Province, Rwanda
Overall Test Assessment:	**100% OFFLINE CAPABLE • PRODUCTION READY**
